

# Connecting the Geo Community

**GEO** Alliance  
C A N A D A

@cangeoalliance | [www.geoalliance.ca](http://www.geoalliance.ca) | info@geoalliance.ca

GeoAlliance Canada is an umbrella organization for the geospatial sector, providing leadership within our community to raise the profile of the geography, geomatics and geospatial professions in Canada.

What is GeoAlliance Canada?

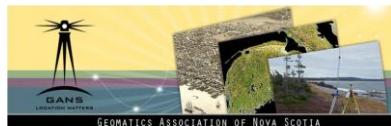

GeoAlliance Canada provides a neutral platform for members of the geo community to network and collaborate on projects of mutual interest that will increase public awareness of the value of the geospatial information supply chain.

What is GeoAlliance Canada?

Our members are from industry, non-profit groups and associations, education, and government. These groups share an interest in nurturing a healthy, vibrant geo community. By working together on key projects of national importance, we can drive increased investment while reducing duplication of effort across regions and silos.
